Public Open House Scheduled to Discuss Paperjack Drive Improvements

The City of New Richmond is beginning the public engagement process for its 2016 Street and Utility Projects by holding a series of public open house meetings, some of which will be held directly along the streets that will see improvements in the upcoming year. The first public open house will be held on October 22nd from 5:30-6:30 pm along Paperjack Drive, just to the west of the intersection with Hallewood Boulevard. City staff and a representative from the engineering company Short Elliott Hendrickson Inc. (SEH) will have a small tent set up with various preliminary designs for residents to view and discuss. While the event is open to the public, residents who live near Paperjack Drive are especially encouraged to attend. If you have ideas, suggestions, or questions, the City wants to hear from you!

Preliminary planning calls for the following streets to also be included in the 2016 Street and Utility Projects: North Starr Avenue, East Hughes Street, East River Drive, West River Drive, Fairfield Road, Summit Road, and North Shore Drive. Residents who live along these streets should watch for additional information this fall about similar public open house meetings that impact their respective neighborhoods. Residents will receive letters in the mail, and additional information will be printed in the New Richmond News and on the City's website and social media accounts.

If you have any questions, please contact Jeremiah Wendt, Public Works Director, at 715-246-4268 or jwendt@newrichmondwi.gov.
